### Part III STATEMENT OF REASONS FOR ALLOWANCE

1. This office action is in response to the amendment filed on 10/21/08. Claims 1-6, 14 and 16 are being allowed over the prior art of record. Prosecution on the merits is closed in this application.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches different ways of processing data having two processors (or processings), however the prior art of record fails to teach, or suggest the claimed limitations of (in combination with all other features in the claims), an apparatus, method or computer program having a first processor (or first processing) which performs a first processing in the plurality of processings for the image data received by said communication device; a second processor(or second processing) which performs a second processing in the plurality of processings, different from the first processing, for the image data received by said communication device; and a controller which makes said first processor perform the first processing, **outputs an image data processed with the first processing, and, if the command includes a request for simultaneous processing (or activation), automatically** makes said second processor perform the second processing and transmits the image data processed by said second processor through said communication device to the external apparatus, as recited in the independent claims.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee, and to avoid processing delays, should preferably accompany the Issue Fee. such submissions should be clearly labeled "comments on statement of Reasons for Allowance".

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Both Kashiwagi (2002/0015160) and Sakurai (2004/0049608) teach an image forming apparatus having scanning and printing processings.
